SCIENCE DEPT

The 7th grade Science classes need parents to save old candles/candle wax. Even little pieces of remnants and/or leftovers in jars. They melt it all together for a mining project so it doesn't matter how small the amount (doesn't matter on scent, color, or anything else). Scentsy wax that is poured out when changing can also be saved/used.

They also need used working blenders for paper projects.

POLICE BEAT

As your child must have told you...they are required by law to wear a helmet in order to ride their scooter, skateboard, or skates now, regardless of whether they are on the street or sidewalk! Could we also get a little help from all of you...as you have noticed, Mrs. Mulligan, other officers and myself have been out front encouraging your child to get out of the car as you pull up to the curb in the drop off area. The traffic out on the street is getting out of hand again! Please, if you must spend extra time talking to your child, writing notes or other delaying activity, find a parking spot. If everyone pulled up and let their child out at the first opportunity, we would have no issues! Thank you for your assistance in this matter. Officer Ballistrea
